

## WRM SERIES WALL RACK

This unit will suit all of your small wall mount rack requirements. Its available in a 7 space and a 10 space version. The WMR is completely welded for superior strength, and is made from 18 gage steel. It comes standard with a locking front door and front mounted 11 gauge threaded 10-32 EIA rack rail. The rack rail is mounted 5/8" back from front of the rack. There is large rectangular knockout on back panel and double 1/2" & 3/4" electrical knockouts on top, bottom. The sides are slotted for maximum ventilation. There is a fan knockout located on the top & bottom of the enclosure. The front door is 1-1/2" deep to offer good rail-to door clearance, and can be mounted on either sides of rack. The WMR rack comes standard with a durable textured black powder coat finish. There are four keyway cutouts located on the back panel for wall mounting.
